

CEO Report June 2026

2026 East Ferris Tradeshow

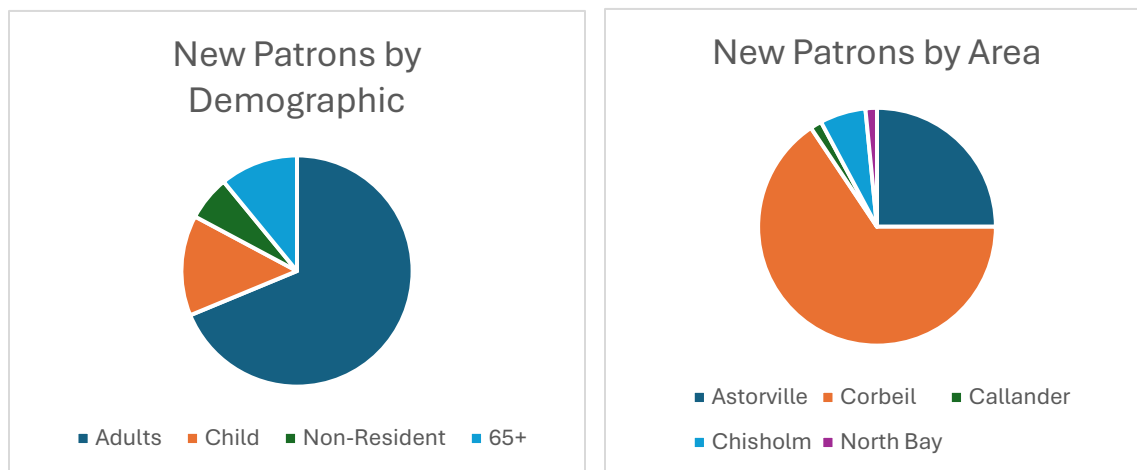

The Trade Show for us is always a great opportunity to showcase the library. Our focus over the last few years highlights all the things you can do with the items from our Library of Things. Folks were surprised to see two full tables of equipment and items, but not one book in sight!

We had good foot traffic and issued 6 new library cards and 3 library card renewals.

We also took the opportunity to make connections with the various vendors at the show. Melanie passed out her business card and collected emails for possible future events and programs.

2026 Stat Bites

64 new membership cards since January 1st, 2026.

1079 Active card holders in total. This total also includes patrons who only use Libby exclusively.

Active card holders: those who have checked out or downloaded something from the Library collection in the last two years.

448 titles added to the collection in 2026

518 items weeded from the collection in 2026

12,351 items inventoried since January 1st 2025. Thanks to our volunteers, the inventory has been completed! Since I've been here, we've only inventoried twice!

The ad has been posted for the summer position. We are gearing up for another action packed summer.!

Here is what's happening in June.

June

EFPL
